JR-GK0315

Type A

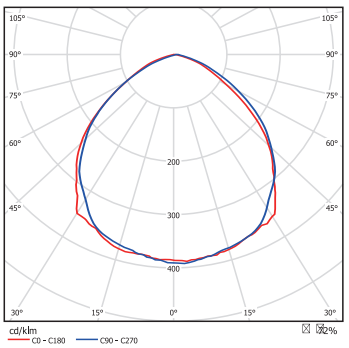

Type B

Features

◎aluminum die-casting electrical box patent Flying Saucer electrical box or aluminum alloy electric box.
◎Plastic spray surface,elegant surface.
◎The secondary anodic oxidation of the high purity aluminum reflector , improve the light output effectively.
◎Tempered glass ,high translucent.
◎Installing height：6-15m.

Applications：
industrial factory, Warehouse,stadium, hypermarkets,supermarket and other indoor environment.

Technical Data

Lamp source:JR-YH Series
Frequency:230kHz
Power：250W/300W(22')
input voltage:220V/90V-305V
Working temperature:-35℃~50℃
Protection：IP54
G.W.：A:9.8KG B:9.3KG
Packaging size：A:585x585x520; B:585x585x550(mm)
